United States Patent and Trade Office
Commisioner or Patents
PO Box 1450
Alexandria, VA, 222313-1450

Dear Commisioner:

I would like to express my sincere gratitude and acknowledge the Inventors Assistance Centers' support, and to an individual who is working as an examiner in the United States Patent and Trade Office.

In the past few years I have filed several patents, and due to some financial constraints have prosecuted some of my most recent patents as an individual inventor. Examiner Gail Verbitsky handled the examination of application 10/612,512 Temperature Measure Device. She was professional, courteous and prompt with all communications and follow up on this application. Overall, my experience and interaction with examiners at the US Patent and Trade Office has been postitive, but I would like to take the time to commend you, the supervisor and the examiner for the support and service rendered at the US Patent and Trade Office.

Please help me pass this letter of gratitude along to the examiner and her supervisor.

Sincerely,

Carl Conforti
Inventor /Small Business Owner
